Course activities

Class participation through discussion is an integral part of this online course, although it is typically less formal than other work submitted throughout the course. Participation is defined as active engagement in a discussion or other online activity. To provide a structure for balanced participation and allow students to maximize the benefit of the discussion boards, it is recommended that they follow these guidelines: 1. Post responses to discussion questions in the first three days of the school week (Monday through Wednesday). 2. Post three or more thoughtful and topic-relevant comments to responses made by classmates during the last four days of the school week (Thursday through Sunday). 3. Respond to any questions that instructor or peers have regarding the original post by the end of the school week. Additionally, students are expected to attend and participate in all classroom sessions and course activities conducted during those sessions. Instructors will provide detailed grading criteria for in-class attendance and participation in classroom-based activities. The following is the grading criteria for online discussion board activities.

<i>Components</i>	<i>% of Grade</i>
Timeliness of responses	15%
Quality of responses	70%
Quantity of responses	15%
TOTAL	100%

Quizzes

Students will take weekly equally weighted online quizzes to reinforce the course materials. The quizzes will test students' ability to utilize course concepts and terminology. All quizzes are closed books and notes.

<i>Components</i>	<i>% of Grade</i>
TOTAL	100%

Movie or Book Review

Students will write a six- to seven-page, double-spaced review of the movie or book that focuses on the issues of elderly people. In their review, students have to briefly summarize movie/book as well as evaluate and analyze it from a sociological point of view, using concepts discussed in this course. Additionally, students will discuss how the topics raised in the movie/book relate to the topics in the textbook and class discussions and what they did learn from this movie/book. Students are expected to combine their own thoughtful analysis with ideas and information found in the textbook or other sources. Therefore, as in any scholarly writing, students should not merely copy information from another author, but use evidence to support the contentions they have drawn from their findings and critically analyze related literature - this paper has to be an analytical paper, not a summary of readings. This paper must meet APA requirements of format and style. Students must cite the sources of all ideas, facts, and information used that are not their own, even if they have put the information into their own words. Failure to do so is plagiarism, even if the oversight is unintentional.

<i>Components</i>	<i>% of Grade</i>
DAS-U-Analysis and use of course concepts	30%
DAS-U-Evidence and support	30%
DAS-U-Organization and coherence	20%
DAS-U-Style and mechanics	20%
TOTAL	100%

Research Paper

Using the concepts covered in this course, students will write a nine- to ten-page, double-spaced research paper as part of the assignments to meet the learning objectives of this course. In their paper, students will explore in depth a subject of their interests related to the course of study. Students are expected to combine their own thoughtful analysis of the topic with information found in a minimum of five sources. Students need to keep in mind that this is to be an analytical paper, not simply a summary of your reading. Therefore, as in any scholarly writing, students should not merely copy information from another author, but use evidence to support the contentions they have drawn from their findings and critically analyze related literature - this paper has to be an analytical paper, not a summary of readings.
