SPECIFICS OF COURSE ASSIGNMENTS

The instructor will provide grading rubrics that will provide more detail as to how this assignment will be graded.

Norm-Referenced Testing Process Analysis

Candidates will write a research paper on two norm-referenced assessments used by school psychologists for special education referral and eligibility determination. Candidates analyze two different types of assessments – one academic/cognitive and the other in a different category (social skills, adaptive behavior, gross/fine motor functioning, etc.). Candidates conduct an interview with a school psychologist about the process of test administration, interpretation, and collaboration with a multi-disciplinary team when reporting the results and monitoring student progress.

<i>Components</i>	<i>% of Grade</i>
Interview	50%
Norm-Referenced Test Descriptions	50%
TOTAL	100%

Curriculum-Based Assessment Analysis

Candidates choose a focus disability category and research three different curriculum-based assessments that might be used for a student in that category. For each assessment, candidates will:

- Summarize of the purpose of the assessment,
- identify the evidence base supporting the use of the assessment tool,

- appropriate age and/or ability range,
- the appropriateness of the assessments for a given disability (of the candidate's choosing),
- strengths and weaknesses of the assessment,
- Identify and justify appropriate accommodations and modifications that would need to be made for the assessment to be accessible to a student in the chosen disability category.

Focus Disability Category	20%
Assessment Descriptions	20%
Assessment Analysis	60%
TOTAL	100%

Curriculum-Based Assessment Creation, Implementation, and Reflection

Candidates create an original curriculum-based assessment that is geared toward assessing a particular skill for one special education student. The assessment should be based on one of the student's IEP goals. Candidates will then give the assessment to the student, critically analyze/reflect on the results, and develop a future plan for increasing the student's performance on the skill that was assessed.

Assessment Creation	30%
Assessment Implementation and Reflection	40%
Future Plan	30%
